Mission Statement

The Materials Management Department's commitment to quality and customer service is at the heart of how we work. This commitment permeates our activities which are associated with the acquisition, inventory management, distribution, storage of medical/surgical supplies and equipment, management of biomedical equipment, and assurance of the safe operating condition of the equipment utilized at the Clinical Center for clinical research and patient care.

Vision Statement

The Materials Management Department will conduct its operations in an effective and professional manner, utilizing innovative methods and techniques designed to support and enhance NIH's research efforts. We will achieve and sustain total conformance to customer expectations for excellence in personal service. We are committed to the promotion of an exceptionally positive environment, emphasizing personal and professional growth.
